

COLUMNS

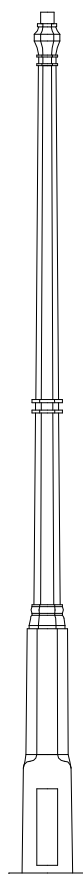

KEY FEATURES

- + Standard 76mm diameter spigot to accept all commonly available lanterns
- + Aluminium cast
- + High build zinc primer (HBZP)
- + JC12 high gloss paint
- + Removable cast aluminium door for base compartment electrics
- + Marine ply backboard for choice of cut outs
- + Our own patterns
- + The Groveland column design is based on standard foundry column designs
- + The Board of St Giles column design is inspired by an actual column from its namesake
- + Sizes meet standard streetlighting specifications
- + Modern materials superior in durability to heritage columns whilst maintaining the style

Cast LM6 Aluminium is ideally suited to lighting columns due to its ductility and toughness.
